ADMISSIONS MANAGEMENT MODULE (ADVANCED)

SmartCampus School Management System
Technical Specification & Implementation Guide — v1.2 · March 2026
Confidential · Internal Documentation

Audience: Admissions Team · School Administrators · IT Team · Applicants/Parents

Related Modules:
Students · Communication · Finance · Documents · Analytics · Parent Portal

---

1. MODULE OVERVIEW

1.1 Purpose

The **Admissions Module** manages the **full student intake lifecycle**, from first inquiry to final enrollment, with automation, tracking, and communication.

---

2. CORE OBJECTIVES

1. Streamline the **admissions pipeline**
2. Improve **conversion rates (inquiry → enrollment)**
3. Provide **real-time tracking and transparency**
4. Automate **communication and reminders**
5. Ensure **secure document handling and compliance**
6. Deliver **data-driven insights for decision-making**

---

3. REAL-WORLD ADMISSIONS FLOW (ENHANCED)

3.1 Pipeline

```
Inquiry → Application → Document Submission → Assessment → Interview →
Decision → Enrollment
```

3.2 End-to-End Flow

```
Parent/Student submits inquiry
  ↓
System auto-creates applicant record
  ↓
Application form completed online
  ↓
Documents uploaded & verified
  ↓
Assessment scheduled
  ↓
Interview conducted
  ↓
Decision recorded (Accepted/Rejected/Waitlisted)
  ↓
Offer letter sent
  ↓
Parent confirms + pays fees
  ↓
Student auto-created in Student Module
```

---

4. MODULE ARCHITECTURE

```
Admissions Module

├── Decision Engine
├── Enrollment Processing
├── Applicant Portal
├── Communication Engine
├── Analytics & Reporting
├── Audit & Compliance
```

---

5. INQUIRY MANAGEMENT

5.1 Features

- Capture inquiries from:
  - Website forms
  - Walk-ins
  - Calls
  - Referrals
- Track:
  - Source (important for marketing)
  - Date/time
  - Assigned staff

5.2 Automation Rule

```
New inquiry created
  → Auto-send acknowledgment (Email/SMS)
  → Assign to admissions officer
```

---

6. APPLICATION MANAGEMENT

6.1 Features

- Online application forms
- Draft saving
- Multi-step submission
- Validation rules

6.2 Data Model

```
Application
- application_id
- applicant_name
- program_applied
- intake_year
- status
- submission_date
```

---

7. DOCUMENT MANAGEMENT (CRITICAL UPGRADE)

7.1 Features

- Upload:
  - Transcripts
  - Birth certificate
  - ID/passport
  - Recommendation letters
- File validation:
  - Format (PDF, JPG)
  - Size limits
- Document verification workflow

7.2 Flow

```
Applicant uploads document
  ↓
Stored securely (cloud storage)
  ↓
Admin reviews
  ↓
Status: Approved / Rejected / Pending
```

---

8. ASSESSMENT & TESTING

8.1 Features

- Schedule tests
- Record scores
- Attach results to application

---

9. INTERVIEW MANAGEMENT

9.1 Features

- Calendar-based scheduling
- Panel assignment
- Interview notes

9.2 Flow

```
Interview scheduled
  ↓
Notification sent to applicant
  ↓
Interview conducted
  ↓
Evaluation recorded
```

---

10. DECISION ENGINE

10.1 Decision Types

- Accepted
- Rejected
- Waitlisted

10.2 Automation

```
Decision recorded
  → Auto-generate offer/rejection letter
  → Notify applicant
```

---

11. ENROLLMENT PROCESSING

11.1 Features

- Offer acceptance
- Fee payment integration
- Student record creation

11.2 Flow

```
Applicant accepts offer
  ↓
Pays admission fees
  ↓
Student profile created
  ↓
Assigned admission number
```

---

12. APPLICANT PORTAL (MAJOR GAP FIX)

12.1 Features

- Application status tracking
- Document upload
- Notifications
- Interview scheduling
- Offer acceptance

12.2 Real-World Experience

Applicants can see:

```
Application Status: Under Review
Documents: 3/4 Submitted
Interview: Scheduled (March 25)
Decision: Pending
```

---

13. COMMUNICATION ENGINE (CRITICAL)

13.1 Features

- Email notifications
- SMS alerts
- In-app messaging

13.2 Triggers

- Inquiry acknowledgment
- Application submission
- Missing documents
- Interview reminders
- Decision updates

---

14. ANALYTICS & REPORTING

14.1 Core Metrics

- Conversion rates
- Acceptance rate
- Processing time
- Enrollment vs target

14.2 Advanced Analytics

- Source effectiveness (ads, referrals)
- Drop-off points
- Demographics
- Predictive enrollment trends

---

15. AUDIT & COMPLIANCE

15.1 Features

- Action logs:

```
Admin A approved document at 10:30 AM
Officer B changed status to "Accepted"
```

- Version history
- Data retention policies

---

16. SECURITY & ACCESS CONTROL

- Role-based access
- Secure document storage
- Data encryption
- Compliance with data protection laws

---

17. MOBILE-FIRST DESIGN

17.1 Requirements

- Responsive web interface
- Mobile-friendly forms
- SMS-based access for low connectivity users

---

18. SCALABILITY

- Support thousands of applications
- Multi-campus support
- Cloud-based infrastructure
