---

1. MODULE OVERVIEW

1.1 Purpose

The **Alumni Module** manages **post-graduation relationships**, transforming former students into:

- Active community members
- Mentors and contributors
- Brand ambassadors
- Potential donors and partners

---

2. CORE OBJECTIVES

1. Build a **rich, searchable alumni database**
2. Enable **continuous engagement (events, communication, networking)**
3. Track **career progression and achievements**
4. Support **fundraising and contributions**
5. Provide **analytics on alumni impact and engagement**
6. Ensure **privacy, consent, and data protection compliance**

---

3. REAL-WORLD SYSTEM FLOW (CRITICAL)

3.1 Lifecycle Flow

```
Student → Graduate → Alumni → Engaged Member → Contributor
```

3.2 End-to-End Flow

```
Student graduates
  ↓
Auto-transition to Alumni Module
  ↓
Profile enriched (program, year, contacts)
  ↓
Alumni receives onboarding message
  ↓
Invited to events / groups
  ↓
Participates in engagement (events, mentorship)
  ↓
Tracked for contributions (donations, partnerships)
```

---

4. MODULE ARCHITECTURE

```
Alumni Module
│
├── Alumni Profiles (Advanced)
├── Alumni Directory & Search
├── Events & Networking
├── Communication & Campaigns
├── Mentorship System
├── Donations & Fundraising
├── Career Tracking
├── Analytics & Insights
├── Privacy & Consent Management
```

---

5. ALUMNI PROFILES (DETAILED)

5.1 Features

Each alumni profile must include:

- Personal details
- Graduation year
- Program / department
- Career details (job title, company, industry)
- Location (country, city)
- Skills and interests
- Achievements
- Contact preferences

Data Model

```
Alumni
- alumni_id

- graduation_year
- program
- department
- current_company
- job_title
- industry
- location
- skills[]
- achievements
- contact_visibility
- engagement_score
```

---

6. ALUMNI DIRECTORY & SEARCH

6.1 Features

- Advanced filters:
  - Graduation year
  - Program
  - Location
  - Industry
- Search by:
  - Name
  - Company
  - Skill
- Export options (CSV, Excel)

---

7. EVENTS & NETWORKING (CORE FEATURE)

7.1 Features

- Event creation (reunions, webinars, networking)
- RSVP tracking
- Attendance logging
- Event feedback collection

Real-World Flow

```
Admin creates event
  ↓
Target alumni selected (e.g., Class of 2018)
  ↓
Invitations sent
  ↓
Alumni RSVP
  ↓
Event hosted
  ↓
Attendance recorded
  ↓
Feedback collected
```

---

8. COMMUNICATION & CAMPAIGNS

8.1 Features

- Bulk email campaigns
- In-app messaging
- SMS notifications
- Newsletters

Integration

- Uses **In-App Communication Module**

Campaign Example

```
Alumni newsletter created
  ↓
Target: All alumni in Nairobi
  ↓
Email + in-app notification sent
  ↓
Open rate tracked
```

---

9. MENTORSHIP SYSTEM

9.1 Features

- Alumni register as mentors
- Students request mentorship
- Matching algorithm based on:
    - Industry
    - Skills
    - Interests

Flow

```
Alumni signs up as mentor
  ↓
Student submits request
  ↓

  ↓
Connection established
  ↓
Communication via chat module
```

---

10. DONATIONS & FUNDRAISING

10.1 Features

- Donation campaigns
- Contribution tracking
- Integration with Finance Module

Data Model

```
Donation
- donation_id
- alumni_id
- campaign_id
- amount
- payment_method
- date
```

---

11. CAREER TRACKING

11.1 Features

- Employment updates
- Career progression tracking
- Alumni success stories

---

12. ANALYTICS & INSIGHTS

12.1 Dashboards

- Alumni by year/program/location
- Engagement rates
- Event participation
- Donation trends

12.2 Advanced Insights

- Most active alumni
- High-value contributors
- Program success outcomes
- Geographic heatmaps

---

13. PRIVACY & CONSENT MANAGEMENT

13.1 Features

- Profile visibility controls
- Consent for communication
- Data usage transparency

Example

```
Alumni selects:
- Visible to: Classmates only
- Email notifications: Enabled
- Public profile: Disabled
```

---

14. SECURITY & COMPLIANCE

- Role-based access control
- Data encryption
- Compliance with:
  - GDPR
  - Local data protection laws

---

15. SCALABILITY & PERFORMANCE

- Support 10,000+ alumni records
- Multi-tenant architecture
- Optimized search indexing
- Cloud-based storage
